Goals

Code	Goal
C1	Familiarize students with the theoretical frameworks used to analyze political culture and society, esp. American political culture and society, including key concepts and approaches such as pluralism, elitism, social capital, and symbolic politics, among others.
C2	Familiarize students with the main elements of political culture that shape the US political system and assess their changes over time
C3	Provide knowledge about the implications of these changes for democracy in the United States.
C4	Examine the impact of cultural backlash on political culture and democracy.
C5	Explain Inglehart and Welzel's theory of cultural evolution and its application in understanding changes in US political culture.
C6	Introduce students to work of Almond and Verba on political culture and participation, and facilitate their understanding of the key concepts presented; explore the relationship between political culture, civic engagement, and democratic stability.
C7	Utilize various indicators, such as those included in the World Values Survey or International Social Survey Program, to examine the US case in a comparative perspective.
C8	Develop students' reading and writing skills through the analysis of relevant literature and research on political culture.
C9	Explore the divisions within the political culture and identify the factors that contribute to cultural change, including downward trends (e.g., voting, declining confidence in institutions) and upward trends (e.g., rising feelings of efficacy, self-expression values).
C10	Foster critical thinking and analytical abilities by encouraging students to evaluate and interpret the findings of political culture research in the United States.
